ABOUT ME

Junior Next.js Developer | Computer Science Senior
 CS senior with 1 year of hands-on experience building full-stack web apps using Next.js, TypeScript, Tailwind CSS, and MongoDB. Familiar with SSR, dynamic routing, API routes, and responsive UI design. Solid grasp of Git, REST APIs, and basic backend development. Always improving code quality, exploring new tools, and learning best practices. Eager to grow in real-world dev teams and build useful, scalable products. and i am always on the run for learning new technology and gaining new experience

WORK EXPERIENCE

ACCOUNTANT IN 2021-2025

ZANA'S CURRENCY EXCHANGE STORE

Managed daily financial transactions, tracked multi-currency cash flow, and maintained accurate records in a high-volume exchange environment. Handled reporting, reconciliations, and compliance with financial regulations. Focused on precision, fraud prevention, and efficient bookkeeping.
